MIN 1 WEEK HIRE

The diesel powered heating system uses a fresh hot air system which provides efficient running costs through three 300 watt solar panels. The unit has PIR controlled automatic LED lighting on entry, making it perfect for regular use on a busy site. The unit is fully secure with anti-vandal features along with heavy duty low level lifting eyes and fork lift inserts.

KEY FEATURES:

- Solar powered with DC battery backup
- External rain shrouds
- Insulated walls and ceilings
- PIR lighting
- Heated drying room

OPTIONAL EXTRAS AVAILABLE

- Lockers
- Fuel Servicing
- Garic i-SITE Technology
