# JETTER BOWSER

**A HISTORY OF INNOVATION**

**MIN 1 WEEK HIRE**

## STANDARD SPECIFICATIONS:

Product Code	220513
Model Name	GX 160 Jetter Bowser
Dims (L x W x H)	12.6 x 6.5 x 6.5ft / 3.8 x 1.9 x 1.9m
Weight	2600kg
Power type	3000psi
Water tank capacity	2273L / 500 gal.

The high pressure jetter bowzers help you to keep your sites, trucks and equipment clean by providing a power wash facility to quickly and effectively remove dirt and stubborn deposits.

The jetter bowser is suitable for a variety of applications and will clean easily and efficiently without the need for other abrasive methods which may cause chipping or scratching.

Each is suited to the demands of a busy construction site, is powered by a reliable petrol driven jetta engine and comes with an inbuilt 5-gallon anti-freeze bottle.

## KEY FEATURES:

- Secure water storage facility
- Top water inlet (filler point)
- Steel skid frame
- Heavy duty lifting eyes
- Plastic or steel holding tank (size dependant)
- Agricultural steel wheels and all terrain tyres

## OPTIONAL EXTRAS AVAILABLE

- Diesel or Petrol Engine
- Additional Hoses
- Retractable Hose Reel
