OPTIONAL EXTRAS AVAILABLE

- Pumps
- Telemetry
- Fuel management

Designed and manufactured to the highest standards, they are robust enough to withstand the requirements of the most demanding of construction sites.

All pumps, valves and other fittings (including any drips) are securely housed inside the bunded area. Feed and return attachments are accommodated inside the heavy duty padlocked lockbox meaning you're much less likely to encounter fuel theft and giving you complete peace of mind when it comes to safe fuel storage and environmental protection.

Our static bunded fuel tanks are available for either hire or purchase and come in a range of sizes so you're sure to find one to suit your requirements. Off the shelf, the tanks are available with a capacity of 45 gals. right up to 10,000 gals. but please let us know if you need something outside this range.

And of course, our fuel tanks are all compatible with Garic's range of drum and COSHH stores and interceptor drip trays.

KEY FEATURES:

- Secure fuel storage facility
- 110% Steel bund
- Fuel sight level gauge
- 5m of fuel delivery hose
- Standard trigger nozzle
- Fork pockets
- Heavy duty lifting eyes
